ABOUT ME

I am a software development student with a background in 3D & animation, finishing my first year. In my projects, I prioritize structured planning, using UML diagrams and pseudocode. I am comfortable figuring things out alone, but I enjoy working alongside others and building things of lasting value.

SELECTED PROJECTS & WORK EXPERIENCE

Sleeping Beauty (Official site for a local beauty salon) |

Freelancer

sleepingbeauty.hu

- **V1 (Live):** Built a responsive, mobile-first UI using HTML5, CSS3, and Vanilla JavaScript. Implemented custom animations and integrated the Google Maps API for route planning.
- **V2 (In progress):** Currently rebuilding the application from scratch using React and Tailwind CSS to improve maintainability and performance.

DreamTeam Dashboard |

Team project

github.com/FruHuszar/OnfejlesztoWebalkalmazas

- **A gamified self-development web application, made with node.js** inspired by Notion templates, turning daily task management into an RPG experience. Users create tasks by category, earn XP and Coins on completion, level up, and track progress on a visual statistics dashboard.

SKILLS

- **Part of the school curriculum:** HTML, CSS, JavaScript, SQL & MariaDB, Node.js, Java (basics), Python (basics), PHP (basics).
- **Extracurricular:** React, Tailwind CSS, Three.js.
- **Version Control & Teamwork:** Git, GitHub, Jira, Trello, Google Workspace.
- **Approach & Other:** OOP and SOLID principles, mobile-first design, AI-assisted development, 3D modelling, 3D animation, Adobe Creative Suite, Microsoft Office

EDUCATION

Software Developer (Dual Training)

SZÁMALK-Salesian Post-Secondary Technical School

2025 – Present

- 2-year vocational program, currently completing the first year.
- Focus areas: Algorithmic thinking, Web Development, Databases, Server-side programming.

High School Diploma

Garabonciás High School Budapest

2017 – 2021

- Provided a strong foundation in visual design and 3D modelling, which I now apply to modern frontend development challenges.

CERTIFICATIONS & LANGUAGES

- **Certifications:** Cisco Certified Network Associate (CCNA) 1st module
- **Languages:** English B2 (certified via Advanced Level Matura), Hungarian (Native)
